

Capturing and Saving an Image from the Internet

1. Open the Web page that your image is located on.
2. Position the cursor over the image and click the Right Mouse button.
3. On the shortcut menu, choose the option “**Save Image As...**”

4. Choose the drive location you wish to save your image on by clicking the “**Save in:**” pull down menu.

5. After you've chosen where you want to save your image, give it a filename and click “**Save**”.
